PATENT WHITE ZINC, ANTIMONIAL, and other metallic PAINTS, greatly improved in the manufacture, may now be had in any quantity; also whitelead and painters' materials of every description.
Wholesale buyers and the trade supplied on liberal terms.
VAUGHAN and SYMONDS, Southwark Steam Colour Works, Stoney-lane, Borough, London.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to Builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities; it is unaffected by sea-water, sulphuretted hydrogen, or any of the gases; and preserves its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Crescent, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT, of the VIEILLE MONTAGNE ZINC MINING COMPANY.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium, is prepared to FURNISH, on a large scale, the WHITE OXIDE of ZINC in a PURE STATE, and of a quality which can only be manufactured from the Zinc from their Mines in Belgium. The Patent White Zinc Paint is superior in every respect to white lead paint. It is entirely free from all poisonous [illegible] and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides, it preserves its original colour, which white lead paint does not. White zinc paint causes none of those ravages invariably engendered by white lead upon the human frame; neither Painters' Cholic, nor Paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it are subject, and to which persons who inhabit newly painted apartments are also liable. A spurious article having been introduced in the market under the name of White Zinc Paint, the Public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first rate one.—For further particulars and Prospectuses, apply to Mr. H. F. SCHMOLL, general agent for England and Scotland, at the Company's Offices, 13, Manchester-buildings, Westminster-bridge, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by bilge-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, when every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the freshness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It [illegible] as hard as to admit of polishing equal to the finest coach panel, &c.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed; furniture or buildings painted with it are at once disinfected. Paralysis and Painters' Cholic are avoided by its use, as well as similar results to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. 2 cwt. of this paint covers as much as is usually covered by 3 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Dock.

NEW SHOW ROOMS FOR BED- STEADS.—HEAL and SON have erected some extensive Ware-rooms for the purpose of keeping every description of Bedstead. In iron their stock will include every sort manufactured, from the cheap stump, for servants' use, to the handsomely ornamented tubular-pillared Canopy, as well as Brass Bedsteads of every shape and pattern; and in Wooden Bedsteads their rooms are sufficiently extensive to allow them to fit up a variety, both in Polished Birch and Mahogany, of Four-post, Canopy, and French, and also of Japanned Bedsteads—in fact, to keep in stock every sort of Bedstead that is made; and they have also a general assortment of Furniture, Chintzes, Damasks, and Dimities, so as to render their stock complete for the Furnishing of Bedrooms as well as Bedding. And without attempting to compete with the prices at which the lowest class of Furniture is sold, and which is ill for the useful purpose, their new stock will be found to be priced on the same principle by which their Bedding Trade has, during the last thirty years, been so successfully extended, and the goods, whether of a plain and simple pattern, or of a handsomer and more expensive character, are of well-seasoned materials, sound workmanship, and warranted.

HEAL and SON'S List of Bedding, containing full particulars of Weights, Sizes, and Prices of every description of Bedding, sent free by post, on application to their factory.

[illegible] (opposite the Chapel), Tottenham-court-road, London.
